

Village of Alvo

October 5th, 2025

Dear Resident,

On October 7, 2025, the Village of Alvo Board of Trustees will be voting on acceptance of the professional services agreement between the Village of Alvo and Oldcastle Materials Midwest Inc. for asphalt overlay and Notice of contract award/LSE 7. Directly after its acceptance the Trustees will be holding a preconstruction conference with Omni Engineering and MAPA for 1st Street/Fletcher Avenue's mill and overlay project. All community members, impacted by the project or not, are invited to attend.

As stated in notice to the public previously, once the contract has been executed and a start date confirmed, all residents and property owners along 1st Street / Fletcher Avenue who have been identified as impacted parties will receive direct notification from the Village regarding road closures and access provisions.

For individuals who are not identified as impacted parties, and want to know the confirmed project start date, it will be publicly posted at the Village Hall (on the front window and in the hallway) and on the Village's municipal website at: <https://www.alvo.gov/general-5>

Additional detailed project information may be found at the following link:
